

Real Time Risk Assessment

What Could Happen When The Unexpected Happens

Name(s).....

Location.....

Job/ Task.....

.....

Use list below to help identify hazards on this task/ job. Do NOT limit yourself to this list. Add additional Information on back as necessary

Hazard Identification	Specific Hazard Identified	Mitigation Action to Reduce / Eliminate Hazard
Pinch Points		
Line of Fire		
Hot/ Cold Surfaces		
Machine Guards		
Improper/ Damaged Tool		
Ventilation/ Fumes/ Mist/ Dust		
Fire/ Explosion		
Reaction/ Pressure/ Vacuum		
Inadequate Lighting		
Spill/ Release		
High Noise		
Overhead Work/ Falling Objects		
Slips/ Trips/ Falls		
Walking Space		
Housekeeping		
Path of Travel		
Heat/ Cold Environment		
Hazardous Materials Exposure		
Electrical/ Mechanical Energy		
Gravity/ Potential Energy		
Cut/Puncture/ Sharp Edge		
Head Knocker		
Congestion/ Tight Spaces		
Heavy Load/ Secure		
Fall From Elevation		
Climbing/ Crawling/ Bending		
Lifting/ Twisting/ Pulling		
Excessive Force/ Exertion Level		
Reaching/ Awkward Position		
Insect/ Snake/ Animal		
Pace/ Repetitive Motion		
Eyes on Hands/ Work		
Other		

Proper PPE

Eye/Face Protection	Safety Glasses	Face Shield	Goggles
Hearing Protection	Ear Plugs	Earmuffs	Double Hearing Protection
Hand Gloves	Cut resistant	Chemical Resistant	Heat/ Cold Resistant
Foot Protection	Steel Toe Shoes		
Head Protection	Hard Hat	Bump Cap	
Respiratory Protection	Respirator	PAPR	Supplied Air
Arc Flash	FR Clothing		
Fall Protection	Passive (Guard Rails, Restr	Active (Harness and Lanyard)	Rescue Plan Required for all Active Restraints

Program/ Equipment

LOTO	Form 493	Depressure/ Drain	Block/ Shore all Suspended Loads
Confined Space	Non-Permit Required	Permit Required	Gas Test Required for ALL
Hot Work	Standby/ Fire Watch		
Vehicle Inspection	Cart/ Mule/ Gator	Scissor Lift	Boom Lift
Material Handling Equipment	Crane/ Hoist inspection	Rigging sling/ Chain inspection
